

FRENCHTOWN CHARTER TOWNSHIP
TRAFFIC CONTROL ORDER #1-15

An engineering evaluation has been conducted as a result of a site plan review for the Monroe Tel LLC site (aka existing Quatro's site) located at the southeast corner of Stewart Road and US-24 (Telegraph Road). The evaluation included a review of the traffic exiting the proposed site development onto Stewart Road from the driveway located along the south side of Stewart Road. Results of the evaluation indicate the need for the establishment of the following controls to provide better flow of traffic and improve safety at this driveway for vehicle turning movements. As a result of the engineering evaluation, the following traffic control order is hereby established:

(Road Names reference Michigan Geographic Framework)

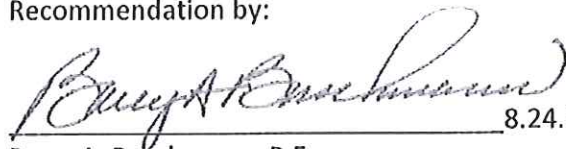

Above referenced site driveway onto Stewart Road, "NO LEFT TURN, 11AM -1PM, 3PM - 6PM, ENFORCEABLE BY LAW", two (2) signs with one (1) sign placed on either side of the driveway for vehicles exiting the site onto Stewart Road. Signs to be placed outside the Stewart Road right-of-way.

NOTE: The Monroe County Road Commission also has generated a Sign Covenant & Easement document addressing property owner responsibilities in regard to sign dimensions, details, maintenance, restrictions and other responsibilities that reference this Traffic Control Order (TCO.)

This Traffic Control Order shall become effective upon the installation of the appropriate regulatory signs.

Issued in Frenchtown Charter Township, in the County of Monroe, in the State of Michigan on September 22, 2015.
